Highlights	<p>Cool Touch: The Hot Glass System is the solution for everyone who wants to keep fingers cool while keeping the drink much longer hot</p> <ul style="list-style-type: none"> - The double wall insulates hot and cold beverages alike with yet a second effect. No more damaged surfaces through wet vapor-film rings or heatmarks as the double layer keeps them apart. No coaster is necessary anymore! <p>Hot Design: Equally equipped with our ingenious permanent filter it allows you to enjoy your tea individually. Hot design for a "floating" tea experience.</p>

HOT GLASS SYSTEM hot design, cool touch

finum's® Hot Glass System is the solution for everyone who wants to keep fingers cool while keeping the drink much longer hot. The double wall insulates hot and cold beverages alike with yet a second effect. No more damaged surfaces through wet vapor-film rings or heatmarks as the double layer keeps them apart. No coaster is necessary!

Actually, the Hot Glass System is the small clever brother to our Bistro System.

Equally equipped with our ingenious permanent filter of taste and odour-free stainless-steel micro-mesh and a heat-tolerant plastic frame it allows you to enjoy your tea individually. The hat prevents heat-loss and retains the aroma. It doubles as a handy drip-off tray for the brewing basket. The set is completely dishwasher safe.

This is hot design for a "floating" tea experience. Hand-made each glass shows individual nuances in thickness, height and weight. Enjoy!
